Summary

Front-end developer with hands-on experience in JavaScript, React, and UI/UX design. Skilled at building responsive, user-friendly interfaces. Eager to grow in a dev-focused team and apply my skills in real-world projects.

Experience

Efficion Consulting Limited   September 2023 - Present
Front-End Developer   Remote

- Developed and deployed scalable web apps using React, Tailwind CSS, and REST APIs, improving performance and reducing load times.
- Built reusable components and handled complex form validations and dynamic routing, cutting development time on future projects
- Collaborated with UI/UX teams to translate mockups into clean, responsive interfaces that increased user engagement and satisfaction.
- Debugged and optimized frontend code across projects, reducing reported bugs and issues by 50% over three months.

SQI College of ICT   November 2022 - August 2023
Front-End Developer & UI/UX Intern   Nigeria

- Created responsive and mobile-first web interfaces using HTML, CSS, JavaScript, and React, improving usability and accessibility across devices.
- Converted high-fidelity Figma designs into functional frontend components, enhancing user flow and aligning with design best practices.
- Conducted user testing and implemented feedback-driven design changes, resulting in smoother user interactions and fewer drop-offs.
- Enhanced team freelance projects by introducing innovative ideas, resulting in a 20% faster delivery time and more user-friendly interfaces.
